Fold en zine med 8 sider (af ét stykke papir)

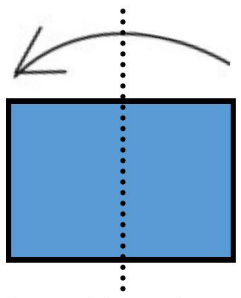

Du skal bruge: ét stykke papir og en saks

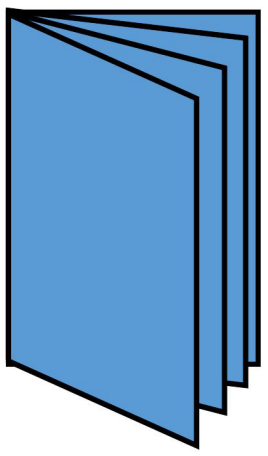

1 – Fold papiret på midten langs den lange side.

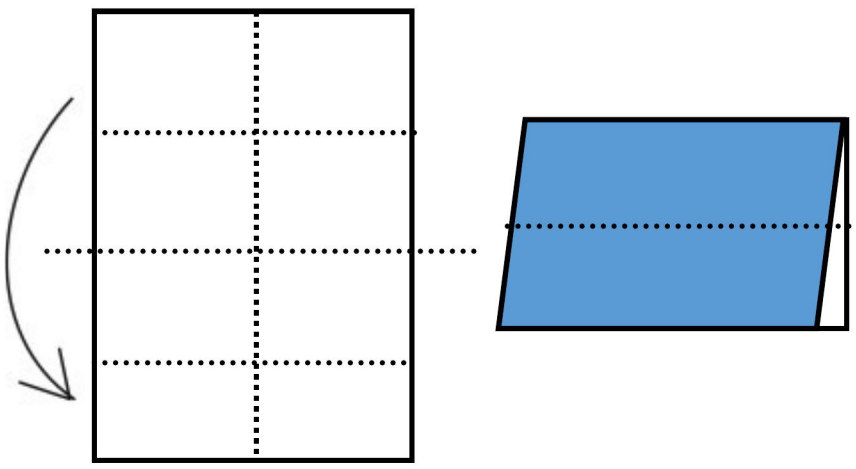

2 – Fold papiret på midten langs den korte side.

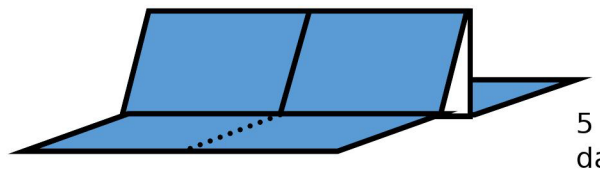

3 – Fold papiret på midten langs den korte side igen.

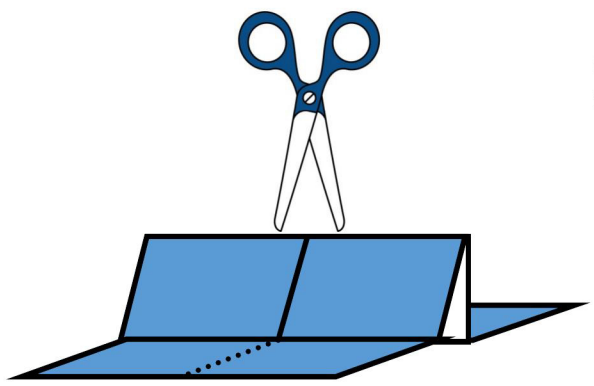

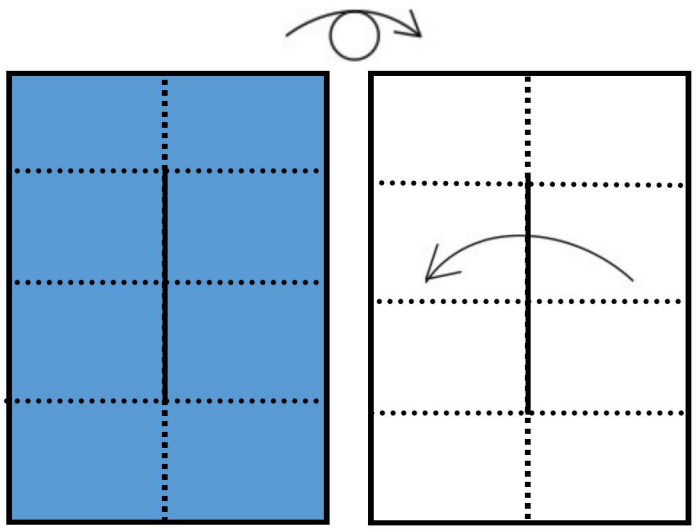

4 – Fold papiret ud. Nu har du 8 felter. Fold papiret på midten langs den korte side.

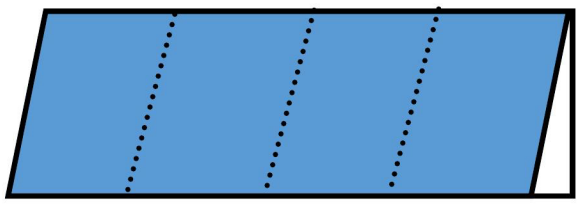

5 – Fold de nederste dele op, så papiret danner et telt.

6 – Klip langs folden fra midten og ned til teltets bund.

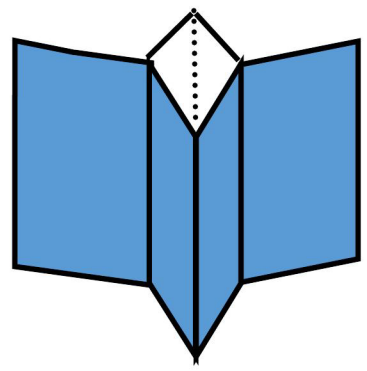

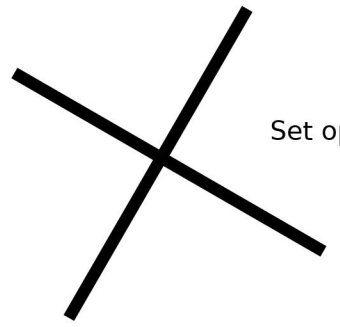

7 – Fold papiret ud. Nu har du 8 felter og et snit i midten. Fold papiret på midten langs den lange side.

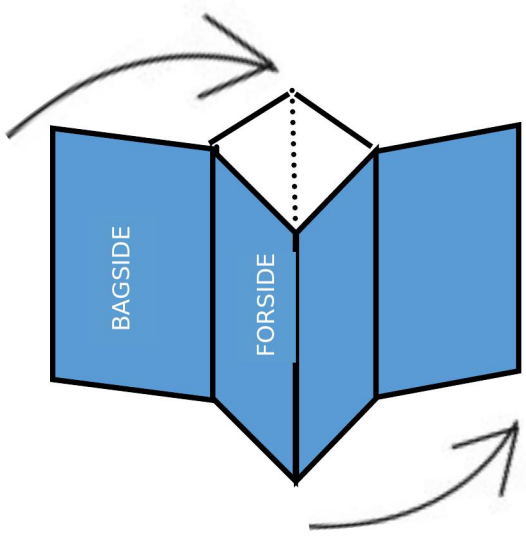

8 – Hold i de to sider, og skub dem langsomt sammen, så snittet åbner sig, og papiret set oppefra danner et X.

Side set fra siden

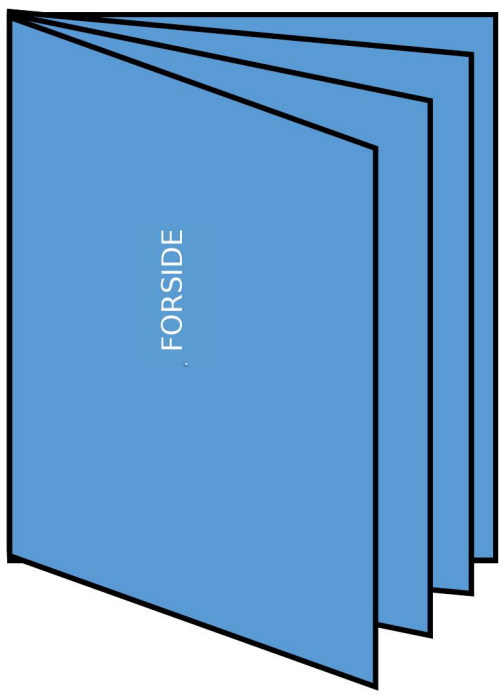

Set oppefra

9 – Før alle fire kanter sammen, og pres dem sammen.

Nu har du foldet din zine! Den har 8 sider (inklusive forside og bagside)
